Military Aide to the President  
The White House

Dear Ted:

I note with concern that we don't have a good picture of the President in the building, although we do have many pictures of him. I would like to get a really good one to hang in the Director's conference room where we have our senior staff meetings and where the Director has all of his larger conferences. Do you think you could get one of your aides to send us over some. We will take care of the appropriate framing. Many thanks.

With very best wishes.

Sincerely yours,
